## Company Profile

We have over 25 years experience in plastics and ceramic processing machinery and spares. This includes the supply of Screen Packs, Screen Changers, Diverter Valves and Hydraulic units.

We also design and supply removable Breaker Plates, Fixed Breaker Plates (at the end of the Extruder - before the Die), Spares for Screen Changers by Reverse Engineering and Adaptors for Extruders & Screen Changers.

We are committed to supplying high quality consumables and spare parts to the plastics and ceramic industry at highly competitive prices.

We at EPS value our customer's time, we also know how crucial it is to our customers to have delivery of the consumables on time without hassle, and therefore we go an extra mile to deliver on time every time.
